 **ONCC**  
**FREE TAKE**  
Nurses get a free **retake** if they don't pass.

# About the Program

Help your nurses earn oncology certification –  
**THE NO-RISK WAY.**

Enroll in the ONCC FreeTake Program and your nurses can take an oncology certification test up to two times, and you only pay when they pass. The program applies to all ONCC examinations:

- **OCN**<sup>®</sup> (Oncology Certified Nurse)
- **CPHON**<sup>®</sup> (Certified Pediatric Hematology Oncology Nurse)
- **AOCNP**<sup>®</sup> (Advanced Oncology Certified Nurse Practitioner)
- **CBCN**<sup>®</sup> (Certified Breast Care Nurse)
- **BMTCN**<sup>®</sup> (Blood & Marrow Transplant Certified Nurse)

## Here's how it works:

1. Your institution applies to participate in ONCC FreeTake.
2. You agree to provide at least 10 ONCC test candidates during a 12-month agreement period.
3. You distribute special codes to eligible staff. (This allows nurses to apply without payment.)
4. The nurse applies and takes the test. If the nurse passes, you are invoiced for the test fee. If the nurse doesn't pass, she/he can apply to retake the test one time within 12 months.
5. If the nurse passes on the second attempt, you pay the test fee. If the nurse doesn't pass, you don't pay (and neither does the nurse).

# Benefits

## ONCC FreeTake:

- Decreases nurses' test anxiety – nurses can retake the test one time for free.
- Removes the financial burden of paying a test fee up front – your institution is invoiced only if the nurse passes.
- Eliminates cumbersome accounting processes for reimbursing individual nurses after they pass a test.
