

ONCC's BIG LIST OF FREE CE

41

Looking for free or low-cost continuing education (CE) programs for certification renewal? ONCC compiled this list of continuing education offerings for renewal points. You may be able to use some of these offerings to fulfill your requirements for certification renewal.

Check your learning plan (test results report or assessment results report) to determine subject areas where you may need points. (If you need to take your assessment, be sure to do that before completing CE.) Some offerings may apply to more than one category, but you cannot claim points for the same activity twice. These offerings do not need to be divided among multiple categories.

Some of these offerings are time-limited and may require registration with the provider.

Applying the Latest Evidence in Breast Cancer: Individualizing Treatment Plans Based on Patient-, Disease-, and Treatment-Related Factors 0.25 Points

Prime • Accreditor: ANCC
