

ONCC's MINI LIST OF FREE CE

RADIATION

Looking for free or low-cost continuing education (CE) programs for certification renewal? ONCC compiled this list of continuing education offerings for renewal points. You may be able to use some of these offerings to fulfill your requirements for certification renewal. These offerings may also be able to be used to meet eligibility criteria for initial certification.

Check your learning plan (test results report or assessment results report) to determine subject areas where you may need points. (If you need to take your assessment, be sure to do that before completing CE.) Some offerings may apply to more than one category, but you cannot claim points for the same activity twice. These offerings do not need to be divided among multiple categories.

Some of these offerings are time-limited and may require registration with the provider. Please note: Providers hold the right to change the offering expiration date at any time. Check the expiration date before completing any program.

Archived NCCN Tumor Boards: Skin Cancers Except Melanoma - Radiation Therapy Treatment Options

1 Point

NCCN • Accreditor: ANCC

<https://education.nccn.org/node/97322>

ILNA Categories: Care Continuum | Treatment | Professional Practice | Roles of the APRN

Expires 7/31/2026

Clinical Applications of MR Imaging in Stereotactic Localization Radiosurgery Procedures

1.5 Points
